

# Markdown Basics

*Jeanne*

*21/02/2017*

Markdown is able to show different types of text:

- *italics*
- **bold**
- `code`
- [links] (<http://rmarkdown.rstudio.com>)  
(<http://rmarkdown.rstudio.com>)
- etc.

But you could also create

- Latex equations,  $E = mc^2$
- bibliographies [[@rmarkdown15](#)]

## Reference

- JJ. Allaire, et. al. 2015. "R Markdown" [rmarkdown.rstudio.com](http://rmarkdown.rstudio.com)

## Other formats

- Headers, Lists, Links, Images, Footnotes
